Supports Intensity Scale®

James R. Thompson, Brian Bryant, Edward M. Campbell, Ellis M. Craig, Carolyn Hughes, David A. Rotholz, Robert L. Schalock, Wayne Silverman, Marc Tassé, and Michael L. Wehmeyer

Since its publication in 2004, the *Supports Intensity Scale* (SIS) has revolutionized developmental disability services worldwide. The SIS is a progressive, state-of-the-art assessment tool that measures the supports a person with an intellectual disability requires in 57 life activities and behavioral and medical areas, and ranks them according to frequency and type of support. Professionals can take the assessment results and develop individualized plans based on the goals and aspirations of the person. SIS consists of an 8-page interview form and comes with a Users' Manual that explains the administration of the instrument.

Supports Intensity Scale®—User's Manual

Test-Kit of Manual & 25 Interview Forms, Product 250, List Price: \$150.00, **Member Price: \$127.50**

25 Interview Forms, Product 251, List Price: \$46.50, **Member Price: \$39.52**

Manual Only, Product 253, List Price: \$115.00, **Member Price: \$97.75**

SISOnline®

SISOnline is a web-based system that enables you to score all the 85 items on the SIS form electronically through a standard web browser, and provides a report in Adobe PDF or HTML format with information on raw scores, standard scores, confidence interval, and a percentile ranking in addition to a graphic plot of the areas assessed by the Scale. SISOnline can be fully integrated into existing legacy systems of states, counties, or large organizations. The system is also available to small practices and individual users.

SIS Venture is available only with SISOnline. It is a portable (off-line) version of SISOnline for data entry of the SIS assessment and can be used virtually anywhere. This application does not require internet connection. Once an assessment is entered, it can be uploaded to SISOnline, where it is stored securely.

"The SIS is becoming a very important face in the service delivery system of Louisiana—from conducting assessments to determining resource allocation for people with intellectual disability."

Scott Meche

Project Director, SIS/Louisiana Plus

**COMING

New versions of SIS are under development. The suite of SIS tools will include a “refreshed” version for adults, a new version for children, and an updated online electronic scoring, data collection, and report-generating platform.

The *Supports Intensity Scale—Adult Version (SIS-A)* is scheduled to be available at the end of 2014. The *Supports Intensity Scale—Children’s Version (SIS-C)* is scheduled to be available in 2015.

Supports Intensity Scale — Adult Version (SIS-A)[®]

The SIS-A publications include the printed manual and assessment forms. SIS-A has several “value-added” changes. However, the elements of the tool that contribute to the standard score and the standard score itself do not change with this refreshed version. SIS-A has:

- Additional items on the cover page that will allow large-scale users to easily create reports on a variety of demographic variables.
- A reordered subscale to allow a more comfortable progression of sensitive topics during the interview.
- An updated user’s manual that incorporates new information and lessons learned since its original publication in 2004.

100 Interview Forms, Product 352, List Price: \$190.00, **Member Price: \$161.50**

Manual Only, Product 353, List Price: \$120.00, **Member Price: \$102.00**

Supports Intensity Scale — Children’s Version (SIS-C)[®]

SIS-C expands upon the original assessment tool. It is designed for children up to the age of 16. As with SIS-A, the SIS-C publications include a printed manual and assessment forms. SIS-C aligns with the structure of SIS-A but is specially tailored to assess the support needs of children. The SIS-C assessment tool addresses the support needs of the child in comparison to typically functioning children of the same age.

The subscales of SIS-C are:

- Home Living Activities
- Community & Neighborhood Activities
- School Participation Activities
- School Learning Activities
- Health & Safety Activities
- Social Activities
- Advocacy Activities

Clinical Judgment Second Edition

Robert L. Schalock and Ruth Luckasson

NEW!

In 2005, AAIDD published the first edition of *Clinical Judgment* to assist clinicians in making decisions or recommendations that were of high quality, valid, and precise. This need was becoming increasingly important as the field of intellectual disability was moving to a community-based service delivery system in which the concepts of equity, inclusion, self-determination, and empowerment were merging with the supports paradigm and the self-advocacy movement. Thus, clinicians were being asked to formulate high-stakes decisions and recommendations that frequently required a level of competency that extended beyond their formal training. In this second edition, the authors maintain their focus on the use of clinical judgment in situations involving diagnosis, classification, and planning supports. In addition, they have synthesized evaluative input from colleagues and literature-based critiques and have extended their analysis and evaluation of the role of clinical judgment in decision making.

Positive Behavior Support Training Curriculum Second Edition

Dennis H. Reid and Marsha B. Parsons

Edited by David A. Rotholz and Bruce A. Braswell

The PBSTC is the only *competency-based* training curriculum that teaches supervisors and direct support staff how to implement the progressive principles of positive behavior support while providing services to people with developmental disabilities. Written in simple, plain language by award-winning authors, the PBSTC requires trainees to demonstrate mastery of skills taught at the end of the training program.

This powerful curriculum:

- Combines supervisor's and direct support editions into one efficient curriculum
- Contains a wide selection of activities to work with people with varying degrees of intellectual disability
- Provides ready-to-use PowerPoint slides on CD-ROM
- Features trainee activities that make learning easier for staff

"The PBSTC Curriculum provides a wonderful base of understanding for staff with no previous training or experience and enhances the skills of well-seasoned staff. The Curriculum is very well designed and is both teacher and student friendly. It is a succinct program that allows ample student interaction and participation."

Donna Boyd

Tri-Developmental Center of Aiken County, South Carolina

TRAINING CURRICULUM: Each Training Curriculum includes a 3-ring binder, a trainee Resource Guide for note taking, and a CD-ROM of training slides. The Training Curriculum contains 25 modules, out of which 9 modules are for supervisors only. Each module contains step-by-step instructions plus activity sheets, skills-check forms, and a mastery skills checklist. Additional Resource Guides can be purchased separately. Buy as many Resource Guides as the number of anticipated trainees.

Negotiating the Social Borderlands: Portraits of Young People With Disabilities and Their Struggles for Positive Relationships

Janet Sauer

Negotiating the Social Borderlands: Portraits of Young People with Disabilities and Their Struggles for Positive Relationships provides readers with narratives of the lives of three young people with significant disabilities. The author uses portraiture to narrate the stories of three young people and to capture the myriad dimensions of each unique individual. These portraits expose a balance between empirical description and aesthetic expression and provide a singular view into the nuances and complexities of each young person's life, while depicting their unique social contexts and how they fit within those milieux. Never losing sight of the dimensions of the selves of these notable young people and

the contexts in which they exist, the author presents the qualitative techniques of inquiry she used to examine the complexities involved in the co-constructions of meaning among the young people and their communication partners.

Trauma-Informed Behavioral Interventions: What Works and What Doesn't

Karyn Harvey

In this book, the author describes "what doesn't work" by outlining the ways in which individuals with intellectual disability may have been damaged by the "behavioral" approach to their day-to-day actions. She demonstrates what has been missed through this approach: Needs have not been met, individuals have been misdiagnosed, and trauma responses have been triggered through the exclusive use of behavioral controls, both positive and negative. The author then moves on to describe "what works." She explores the topics of stabilization, prevention, intervention, and the "mental health plan." She proposes a model of behavioral intervention that does not require the use of restraints or contingencies; instead it promotes safety and security and addresses the outstanding issues around trauma.

Designing Positive Behavior Support Plans Second Edition

Linda M. Bambara and Timothy P. Knoster

This step-by-step, concise, and easy-to-read reference allows school teams to understand, design, and evaluate positive behavior support (PBS) plans for students with developmental disabilities. Empirical strategies presented in the book are known to reduce the occurrence of problem behaviors and enhance the quality of life of a child with a developmental disability.

The second edition contains sections on School Wide Positive Behavior Support, the importance of collaboration and teaming, a list of tools for conducting functional assessments, how to implement support plans successfully, and an updated bibliography and research-based references on PBS.

Good Blood, Bad Blood: Science, Nature, and the Myth of the Kallikaks

J. David Smith and Michael L. Wehmeyer

Good Blood, Bad Blood is a history of the impact of the American eugenics movement—the pseudoscience aimed at improving racial “hygiene” by better human breeding—told through the lens of a notorious eugenic family narrative, *The Kallikak Family*, published in 1912 and written by psychologist Henry Herbert Goddard. The focus of *Good*

Blood, Bad Blood is on the life of that book’s central character, a woman institutionalized as a child at the turn of the century for allegedly being “feeble-minded.” The horrors of the eugenics movement swept through America in the early 20th century—societally sanctioned mass-institutionalization and the forced sterilization of tens of thousands of Americans with disabilities and people wrongfully identified as “defective”—and provided the Nazi regime with strategies and information to take the eugenics tragedy to its ultimate and even more horrifying conclusion. Goddard’s tale of the fictional Kallikak ancestral lines illustrated the eugenic belief in the role of nature and heredity as unalterable forces and reigned for decades as seemingly conclusive proof of the hereditary nature of intelligence, “feeble-mindedness,” criminal behavior, and degeneracy.

A History and Sociology of the Willowbrook State School

*David Goode, Darryl Hill, Jean Reiss
and William Bronston*

The Willowbrook State School is an important part of the history of disabilities in the United States and is regarded by some as the ground zero of the disabilities civil rights movement. *A History and Sociology of the Willowbrook State School* describes in great detail what life was like for the people who lived and worked at Willowbrook and how and why it evolved into the institution that shocked viewers in Geraldo Rivera's 1972 sensational television exposé, "Willowbrook: The Last Great Disgrace."

A History and Sociology of the Willowbrook State School explores a general history of disabilities and institutions and concentrates on the "medicalization" of disability—the impetus for the creation of large-scale institutions. The early history of institutions in New York State, New York City, and Staten Island is adroitly presented as a backdrop that allows the authors to showcase the particulars of Willowbrook itself.

Forging a Federal-State Partnership: A History of Federal Developmental Disabilities Policy

Robert M. Gettings

This book focuses exclusively on the evolving role of the federal government in developmental disabilities services. It explores unique aspects of the historic evolution of the federal government's role in services for people with intellectual disabilities.

It is the first comprehensive attempt to trace the recent history of the federal government's involvement in long-term services policy and especially the evolution of the Medicaid program's role in financing services to people with developmental disabilities.

Author Robert Gettings brings a unique perspective to the topic, having served as executive director of the National Association of State Directors of Developmental Disabilities Services during most of the time period covered by the book. In this capacity, the author played a crucial role in both shaping federal laws and the states' responses to those laws.

A Progressive Vision of Intellectual Disability

The AAIDD definition manual contains the world's most current and authoritative information on intellectual disability, including best practice guidelines on diagnosing and classifying intellectual disability and developing a system of supports for people living with intellectual disability. The AAIDD definition recognizes that limitations co-exist with strengths in an individual and that IQ alone does not provide the information necessary to identify what supports will improve a person's functioning.

User's Guide for Intellectual Disability: Definition, Classification, and Systems of Supports, Eleventh Edition

AAIDD

This practical new User's Guide for the 2010 AAIDD definition manual, *Intellectual Disability: Definition, Classification, and Systems of Supports, Eleventh Edition*, informs clinicians, educators, policy makers, and program managers how to implement the various components of the AAIDD definition system in their specific job settings. The authors discuss the contemporary relevance of the supports-based AAIDD definition in the context of issues ranging from special education practices and IDEA mandates, to diagnosing individuals with higher IQ and conducting retroactive diagnoses. Policy makers and program managers will benefit from discussions on how the supports paradigm can improve quality outcomes, and how the current system incorporates the consensus in the field to utilize a supports-based approach.

The Death Penalty and Intellectual Disability

Edward Polloway, Ed.

In the 2002 landmark decision *Atkins v. Virginia* 536 U.S. 304, the Supreme Court of the United States ruled that executing a person with intellectual disability is a violation of the Eighth Amendment of the U.S. Constitution, which prohibits "cruel and unusual punishment," but left states to determine their own criteria for intellectual disability. AAIDD has always advocated against the death penalty for people with intellectual disability and has long provided amicus curiae briefs in Supreme Court cases. Thus, in this comprehensive new book published by AAIDD, notable authors in the field of intellectual disability discuss all aspects of the issues, with a particular focus on foundational considerations, assessment factors and issues, and professional concerns in Atkins assessments.

National Goals and Research for People With Intellectual and Developmental Disabilities

K. Charlie Lakin and Ann P. Turnbull, Eds.

National Goals is America's first effort to assess the status of the nation with regard to its fulfillment of goals for persons with intellectual disability. Based on a federally sponsored conference in Washington, DC, this groundbreaking book describes current knowledge in critical areas that touch lives of persons with intellectual disability. The state of the knowledge contained in the book in areas such as education, positive behavior support, health supports, biomedical research, technology, and aging makes it an indispensable resource to anyone delivering quality care and services to citizens with intellectual disability.

Way Leads On to Way Paths to Employment for People With Intellectual Disability

AAIDD

Over the course of the past several decades, the disability field has made steady progress in moving toward systems of supports for people with intellectual disability and increased self-determination in life choices. However, meaningful, competitive employment in the community on a large scale is a goal that is yet to be realized. This book looks at the current status of our efforts to achieve this goal by examining the following areas: emerging best practices in employment, the return-to-work process for disability beneficiaries, transition planning, vocational assessment and preparation, supports in competitive employment, postsecondary education, service learning, and planning and supporting employment.

The Supervisor Training Curriculum: Evidence-Based Ways to Promote Work Quality and Staff Enjoyment

Dennis H. Reid, Marsha B. Parsons, and Carolyn W. Greene

The Supervisor Training Curriculum trains current and prospective supervisors in evidence-based strategies of supervising and motivating staff working with people with intellectual disabilities. Based on 30 years of applied research in organizational management, the curriculum offers practical skills that supervisors can use in a variety of settings serving people with a range of intellectual and developmental disabilities. The curriculum follows a competency and performance-based format and includes 11 training modules on key topics in supervision, such as assigning work duties, assessing work performance, and fostering work quality. It also includes trainer instructions and forms for completing "On-the-Job Competency Checks" for each of the skills from the modules. The Trainee Guide comes with a printed curriculum and summarizes key points.

Edited by David A. Rotholz and Bruce A. Braswell

The PBSTC is the only *competency-based* training curriculum that teaches supervisors and direct support staff how to implement the progressive principles of positive behavior support while providing services to people with developmental disabilities. Written in simple, plain language by award-winning authors, the PBSTC requires trainees to demonstrate mastery of skills taught at the end of the training program.

This powerful curriculum:

- Combines supervisor's and direct support editions into one efficient curriculum
- Contains a wide selection of activities to work with people with varying degrees of intellectual disability
- Provides ready-to-use PowerPoint slides on CD-ROM
- Features trainee activities that make learning easier for staff

"The PBSTC Curriculum provides a wonderful base of understanding for staff with no previous training or experience and enhances the skills of well-seasoned staff. The Curriculum is very well designed and is both teacher and student friendly. It is a succinct program that allows ample student interaction and participation."

Donna Boyd

Tri-Developmental Center of Aiken County, South Carolina

TRAINING CURRICULUM: Each Training Curriculum includes a 3-ring binder, a trainee Resource Guide for note taking, and a CD-ROM of training slides. AAIDD EDUCATIONAL PROGRAMS

AAIDD collaborates with partners in offering state-of-the-art educational opportunities in various formats to the global disability community. Best practices, new policy directions, and the latest research findings are presented through these exciting cooperative ventures. Our programs advance our priorities of promoting good health, furthering the supports paradigm, and using proven diagnostic and assessment methods in determining individual strengths, needs, and preferences.

LIVE WEB EVENTS

AAIDD provides opportunities for professional education on a wide variety of important topics through live webinars. These monthly webinars are interactive and allow participants the opportunity to hear and learn from a wide variety of experts in the field.

EVENT EXHIBITS

AAIDD exhibits at numerous conferences each year. These events are an opportunity to meet in person with professionals in the field, through which we identify new partnerships and strengthen those that are ongoing, keep a pulse on the latest developments, and make our publications available to diverse audiences.

AAIDD ONLINE COURSES

AAIDD partners with Relias Learning to offer online continuing education and inservice training opportunities to intellectual and developmental disability professionals. Our Developmental Disabilities Course Library contains courses on a wide variety of topics at multiple skill levels. More than 300 of the courses are accredited by state and national organizations. Courses in the library are searchable by accreditation status, so you can easily find courses that meet your continuing education requirements. Become a member today and receive a 10% discount on all courses.

WHAT COURSES ARE AVAILABLE?

There are hundreds of courses available and more added every month.

Here is a small sample:

- Moving Beyond Survival: Using Technology to Thrive
- Supervision and the Principles of Positive Behavior Support
- Autism Spectrum Disorders: Separating the Data from the Myths
- CBT for People with Developmental Disability
